

House of Meher - Farshi Salwars & Kurtis

Beautiful, minimal e-commerce storefront for premium farshi salwars and coordsets.

Quick Start

Prerequisites

- Node.js installed on your computer
- GitHub account
- Vercel account

Installation

1. Clone this repository

```
git clone https://github.com/YOUR-USERNAME/house-of-meher.git
cd house-of-meher
```

2. Install dependencies

```
npm install
```

3. Run locally

```
npm start
```

4. Open <http://localhost:3000>

Features

- ✨ Minimal, elegant design
- 🛒 Easy shopping cart
- 💳 Razorpay payment integration
- 📱 Mobile responsive

- 🎯 Left sidebar navigation
- ❤️ Wishlist functionality

🔧 Setup Razorpay

1. Go to razorpay.com
2. Create account and complete KYC
3. Get your API Key ID from dashboard
4. In `src/HouseOfMeher.jsx`, replace `'YOUR_RAZORPAY_KEY_ID'` with your actual key

📸 Adding Products

To update products with real images:

1. Upload photos to cloudinary.com
2. Get image URLs
3. Update `products` array in `src/HouseOfMeher.jsx`

🌐 Deploy to Vercel

1. Push code to GitHub
2. Go to vercel.com
3. Click "New Project" → Import repository
4. Click Deploy
5. Your website is live!
